

Automated Gas Beer Brewer concept

DANGER!
Not to be replicated
just an idea
**BLAST AND FIRE
HAZARD!**

Why?

- It's fun!
- There are no available gas-powered beer brewing machines on the market, apparently due to the **danger of open fire and blast hazard.**
- Not every power outlet is capable of holding >1600 W of power for hours and nowadays it's quite expensive.

Known issues

- **DANGER! Fire and blast hazard! NOT TO BE REPLICATED!**
Just an idea!
- Auto-ignition in case of death of fire
